[NOT RETAINED]

Andrew Auslander is a financial expert with decades of experience in Finance and Risk Management with global financial institutions. He was a fixed income trader for twelve years and traded bonds, repo, securities lending, interest rate and FX options. He is an expert in the valuation of corporate bonds and loans with extensive experience in Latin American and Eastern European bonds. For 12 years he was responsible for managing customer credit risk, interest rate risk, and funding risk. He has negotiated and reviewed hundreds of Global Master Repurchase Agreements, Global Master Securities Lending Agreements, ISDA Master Agreements, and Credit Support Annexes. He held senior risk management positions for fifteen years including Chief Risk Officer. At Itau Private Bank, Andrew co-chaired the Credit Risk Committee at an $11 billion private bank where he approved $1 billion of credit lines. He reviewed and approved billions of dollars of structured bonds as head of Asset-Liability Committee. He also led a project to update the entire suitability process.

Mr. Auslander has extensive policy and procedure experience. He has written or revised over one-hundred risk management policies and procedures. He has experience responding to the SEC as he was Chief Risk Officer at Itau (USA) Asset Management when we went through a 6-month SEC examination. He has also been the main risk management contact during three US Federal Reserve and FINRA examinations.
