Hugh Clark

Hugh Clark has had a long and successful career of 37 years in financial markets, including two decades trading spot FX and FX derivatives as co-founder and Chief Investment Officer in an award-winning boutique hedge fund, ten years trading and structuring global equity derivatives in investment banks and over eight years devising and calibrating trade surveillance systems for tier-one banks, ensuring compliance with regulatory directives.

He is skilled in bridging knowledge gaps between legal counsel, regulators, surveillance staff, audit, IT and the front office and has a reputation for clarity. He has extensive experience in interpreting trader intent and market abuse detection in all asset classes, specifically in alleged cases of spoofing, front running, insider trading, wash trading and benchmark manipulation.
